

In-TAC ISSofBC Pre-Arrival Services Job Posting

Technologist

Job ID #: In-TAC-007-17

Sector: Construction

Job Type: Full time

Location: Burnaby, BC

Number of Openings: 1

Salary: DOE (Depending on experience)

Closing Date: Ongoing until filled

This employer has been delivering civil engineering and technology solutions that build and connect communities since 1969. Their company is employee-owned and managed, and their vision is to support the growth of their clients and their communities by providing the most effective engineering infrastructure solutions. They achieve this vision with a commitment to being an employer of choice, by developing our talent, expertise, and variety of services.

This employer currently has an exciting full-time opportunity for a Technologist to join their growing Highway Design Division in Burnaby Head office, situated near the Deer Lake and City Hall area. Their Highway Design Division has been recognized for quality of work and commitment to delivering sustainable engineering and design. Notable projects recently completed include Owner's Engineer on the Port Mann Highway 1 Improvement Project, and the detailed design of the Highway 99 at 16th Avenue Interchange in South Surrey. In this role, you report to the Highway Design Manager and work alongside a friendly and supportive team on a wide range of transportation projects performing CAD drafting and design work. Using Civil3D, you prepare designs and drawings that meet the clients' needs as well as the company's internal quality standards.

Responsibilities

- Reporting to the Highway Design Manager and working alongside a friendly and supportive team on a wide range of transportation projects performing CAD drafting and design work
- Using Civil3D, you prepare designs and drawings that meet the clients' needs as well as the company's internal quality standards
- Preparing highway designs and production drawings using AutoCAD and Civil3D
- Preparing documentation for design folders and reports
- Calculating design quantities for materials and prepare cost estimates
- Assisting in the preparation of project specifications and contract documents

Qualifications

- Previous related work experience in a civil consulting engineering environment
- Completed Diploma in Civil Engineering Technology or College Certificate in CAD, or an equivalent combination of experience and education
- Registration as a Grad Tech with ASTTBC (or eligible for immediate registration) preferred
- Valid Driver's License and own vehicle
- Previous hands-on experience working with AutoCAD and Civil 3D
- Excellent organization and time management skills
- Ability to communicate effectively with colleagues, contractors and clients
- Ideal candidate is a motivated team player with excellent attention to detail

How to Apply

This opportunity is exclusively for Pre-Arrival immigrants to Canada with valid passport from China, Hong Kong, Macau, or Taiwan. **If you are interested in this position (or similar roles) and moving to Canada soon, our Counsellors can assist and connect you directly with employers.**

For Pre-Arrival clients already registered with In-TAC Pre-Arrival Services, email your resume to your Counsellor, including "Job ID # In-TAC-007-17" in subject line. To access our free In-TAC Pre-Arrival Services, please click [here](#) to register as our client.
