

In-TAC ISSofBC Pre-Arrival Services Job Posting

Superintendent - BC Region

Job ID #: In-TAC-011-17

Sector: Construction

Job Type: Full time

Location: Vancouver, BC

Number of Openings: 1

Salary: DOE (Depending on experience)

Closing Date: Ongoing until filled

Be part of a team that works hard, plays hard, and makes a difference in the community. This employer offers competitive compensation packages, and a chance to be an owner in a 100-percent employee-owned company. Not only do they reward you financially, but give you challenging assignments and a supportive work environment which promotes personal and professional growth.

Whether you are looking for a corporate or construction career, exciting opportunities are waiting for you. Their people have helped them stand out as a leading general contracting organization, which is why they are always looking for new talent—individuals who can bring innovative solutions and thinking to every project.

They are seeking a Superintendent for BC Region district office to work on projects in the Vancouver Lower Mainland.

Responsibilities

- Supervises and coordinates all construction activities including manpower, materials, and equipment
- Creates, maintains and executes the project plan, including critical path, and schedule and ensures compliance with budget
- Ensures the implementation of company's Safety Program to create a safe work environment throughout the jobsite; adhere to and integrates all safety related planning, procedural and record keeping requirements
- Depending on project size, supervises, directs, coaches, and trains assistant superintendents, field coordinators, surveyors, students and hourly foreman and staff
- Ensures project materials and workmanship meet the project quality standards and design requirements
- Maintains the project's Daily Job Diary
- Obtains necessary information from engineers, designers, inspectors, municipal/provincial authorities and owners

Qualifications

- Red Seal Carpenter ticket or 2-year college diploma in a construction related discipline
- 5+ years of proven commercial construction experience
- In-depth knowledge of the construction industry, specifically construction specifications, building materials, methods and procedures
- Working knowledge of Microsoft Office software, including Excel, Word and Outlook and internal operational systems
- Ability to lead and assess trade performance on the job
- Ability to apply basic engineering principles to construction challenges
- Ability to visualize the entire project and anticipate constructability issues and embed solutions in the construction plans and schedules
- Ability to schedule, monitor and forecast resources for optimum efficiency

How to Apply:
