Junior System Administrator

Job ID #: In-TAC-012-16
Sector: IT
Job Type: Full time
Location: Vancouver, BC
Number of Openings: 1
Salary: DOE (Depending on Experience)
Closing Date: Ongoing until filled

The company is one of the largest software companies headquartered in downtown Vancouver. Their office is located near the waterfront where they have great views and close proximity to public transit, shops and restaurants. They have designed a new office to provide a bright and inspiring work environment with a variety of custom-built spaces so they can collaborate, communicate, and concentrate. They celebrate their wins in large common areas where they hold hackathons, end of quarter celebrations, and monthly socials. The company believes in a good work / life balance which is reflected in their annual employee retreat where it's all about friends and family.

Responsibilities

- Executing deployments and upgrades on-going releases of the product components in development and QA environments;
- Work on the design, implementation, and maintenance of database systems, including security, back-up, logging, reporting, and recovery procedures;
