## Junior Civil Designer

**Job ID #:** In-TAC-013-17

**Sector:** Construction

**Job Type:** Full time

**Location:** Vancouver, BC

**Number of Openings:** 1

**Salary:** DOE (Depending on experience)

**Closing Date:** Ongoing until filled

This employer performs consulting and EPCM services for many of the world's leading mining companies and is executing world-class projects on five continents. The Vancouver office services multiple industries, including Mining & Metals, Power & Process and Infrastructure. Broaden your opportunities by joining their team.

They currently have an exciting opportunity for a Junior Civil Designer. Reporting to the Civil/Structural/Architectural Department Manager, this position is located in their Vancouver, BC office. This role has responsibilities for assisting with the civil design on projects primarily in the mining industry. If you have a successful track record and thrive on challenges in a fast-paced environment, this is the opportunity for you.

## Responsibilities

- Layout, design and specification for civil systems for industrial plants and their related infrastructure
- Providing civil design and drafting support for industrial facilities and services
- Preparing drawings for site development, buried and overland piping and earthworks including general grading, ponds, roads, and rail spurs using Civil 3D & AutoCAD
- Preparing drawings for structural steel, reinforced concrete, masonry, and/or wood structures using AutoCAD
- Providing structural design, 3D modeling, and drafting support for the construction or repair of industrial buildings, facilities, and services
- Reviewing project documents prior to issue for scope and presentation against project standards and specifications
- Coordinating and working with project team members
- Adhering to established design guidelines and procedures
- Maintaining accurate design files for reference purposes

## Qualifications

- Civil engineering technician/technology diploma from a recognized community college
- Minimum 2-3 years of relevant design experience for industrial plants
- Experience using AutoCAD & Civil 3D
- MicroStation experience is an asset
- Drafting and design experience within a consulting engineering environment
- Ability to work efficiently and effectively when managing multiple tasks
- Effective communication skills
- Ability to work independently and in a multi-disciplinary team environment

## How to Apply

This opportunity is exclusively for Pre-Arrival immigrants to Canada with valid passport from China, Hong Kong, Macau, or Taiwan. **If you are interested in this position (or similar roles) and moving to Canada soon, our Counsellors can assist and connect you directly with employers.**
