

# Youth in Tech Information Sessions

Interested in Web Development, Web Design/ Digital Marketing, Information and Communications Technology?

**Youth in Tech is a skills training and employment program that will help you fulfill your career goals!**

The Youth in Tech information session will allow participants to know more of what the program will offer and what kind of supports will be provided during and after the program. The program aims to provide youth with hands-on opportunities to build digital skills, meet industry leaders and gain meaningful work experience in the Tech sector.

## Eligibility:

- Immigrant or Refugee youth between ages 18-24
- Permanent Resident, Canadian Citizen, or Protected Person legally entitled to work in Canada
- Metro Vancouver resident
- Not a full-time student
- Committed to completing the training program and finding employment in the Tech Sector

## Join our free info sessions:
